Alliance Dental Center, LLC

*Revolutionizing Oral Health®*

**Thank you for your interest in becoming a patient of the Alliance Dental Center!**

Our goal is provide Fund members with dental care which will improve their overall health. Our unique approach to care is designed to reduce existing disease burden and prevent any further destruction of tooth structure, gum tissue or bone.

We are a patient-centered model where our clinical team partners with our patients to reach their goals and improve their overall health. We are an 'oral health center' and not a traditional dental office. ***Our model requires a commitment by the patient, including more frequent and lengthier appointments. You will work with the clinical team to develop a home-care plan.***

**Here are a few of the things we provide:**

- Partner with you to identify your oral health goals to improve your oral health
- Become your 'dental home' so you have a comfortable place to receive care
- Provide you with minimally-invasive care to reduce your disease and work with you long-term to manage your needs
- Help you coordinate your care with specialty offices

**Here are a few things we do not do at our office:**

- We do not do implants.
- We do not replace multiple missing teeth with dentures, implants, or long-span fixed bridges.
- We do not see new patients to only fix an immediate concern or emergency.
- We do not provide cosmetic services.
